

26th -28th of September: Action Days Families and Friends against Deportation

27th of September 2012, at 4 pm: Demonstration against deportation

Starting point: Marcus Omofuma memorial / Museumsquartier, Maria Hilfer Straße (metro U3 Museumsquartier)

Every day, peoples' lives are destroyed by deportation. The present asylum law and the usual administrative practices make it almost impossible for people who have fled persecution, after years of traumatic experiences, to be finally recognised as refugees in Austria. Almost 2/3 of all asylum applications are being rejected.

We resist against our relatives, colleagues and friends being deported!

Every deportation destroys the live and the future of a human being, every deportation tears people apart from each other!

We demand:

- ^ **The right to stay for our friends, daddies, mommies, colleagues and partners**
- ^ **The right to work for asylum seekers**
- ^ **Full social, political and judicial equality in the society and on the job market**

Come and join the struggle!
